

UTV CONNECTING RODS

Crafted with the latest advancements in engineering from our Ultra and Compstar rods, Compstar UTV connecting rods ensure a smooth, trouble-free engine build and deliver exceptional reliability. Produced from heat-treated, stress-relieved 4340 material, these H-beam rods are precision-machined with a shot-blasted, stress-riser-free surface. Meticulously finished at our Ohio facility, every detail of these high-stress components is rigorously analyzed to enhance durability. Additionally, all UTV rods are equipped with ARP fasteners for added strength and performance.

Compstar Can-Am Maverick H-Beam

Length	Journal	Pin	Part #
4.6063 / 117mm	1.5354 / 39mm	0.7087 / 18mm	C27101

Compstar Artic Cat 951 V-Twin H-Beam

Length	Journal	Pin	Part #
5.000 / 127mm	1.8110 / 46mm	0.7087 / 18mm	C28101

Compstar Yamaha YXZ 1000R H-Beam

Length	Journal	Pin	Part #
4.6651 / 118.5mm	1.6142 / 41mm	0.7480 / 19mm	C29101

Compstar Polaris Razor RXR XP1000 H-Beam

Length	Journal	Pin	Part #
4.921 / 124.99mm	1.7319 / 43.99mm	0.7874 / 20mm	C30101
4.915 / 124.84mm	1.889 / 47.98mm	0.8667 / 22mm	C30102
